

I am a truck Driver and I depend on my x-m radio for traffic and road conditions on places that i go to very much every day. I is a VERY handy tool and a benifit for my trade and for ALL drivers who use this radio. I also enjoy ALL the channels it offers including the talk shows they help keep me informed on recent events and opinions. I also depend on the news channels for the news around the country. I cannot believe that you would even consider taking this away from me, I pay for the service, I depend on it, and I need it to do my job to the best of my ability. It is a very helpful device for all drivers but even more for truck drivers, in fact I think it should be installed in every truck on the road!! FOR FREE!!!!!!!!!!PLEASE DO NOT TAKE MY XM RADIO AWAY FROM ME!!!!!!!!!!!!!!
